**CNS2023: Interdisciplinary Insights on
the Future of Dementia Research**

26 September 2023

Cambridge, UK

UNIVERSITY OF
CAMBRIDGE

The 33rd Cambridge Neuroscience Symposium “CNS2023: Interdisciplinary Insights on the Future of Dementia Research” is an international meeting, which will take place on September 26th at Robinson College, University of Cambridge.

Neuroscience at Cambridge is at an exciting juncture, with a renewed focus on accelerating the interactions between basic, clinical, and translational neuroscience across a range of contemporary themes. We are bringing together unique skills and interdisciplinary approaches as a world-leading research university to solve ambitious questions and tackle societal grand challenges. This year, we will focus on dementia. Dementia research has made phenomenal advances over the last couple of decades, with many of the major discoveries made by researchers at Cambridge. We have more than 150 researchers working in dementia research across Cambridge in a range of Departments and across all of our themes. Our research spans genetic, molecular and cellular models of neurodegeneration through to the characterisation of human pathophysiology of dementia, to early phase clinical trials. What we wish to highlight at this meeting is the strength in the interdisciplinary approach to tackling dementia and how collaboration with the communal aim of understanding these diseases and identifying new treatments is key. This meeting will be open to neuroscientists of every discipline and not just dementia scientists.

Sponsoring CNS2023 will:

- Provide the perfect opportunity for you to promote your organisation to a passionate audience of neuroscientists across a wide range of disciplines
- Provide excellent networking opportunities, giving you the chance to make contact with potential employees, partners and customers and form strategic alliances
- Ensure that your organisation is at the forefront neuroscience in the UK and worldwide

Our speakers will attract an international audience of up to 280 delegates, primarily researchers and industry from the Cambridge innovation ecosystem.

£10,000 + VAT - 1 opportunity available

The **Headline Sponsor** will benefit from:

Exhibit

- Exhibition space prominently placed within the poster and refreshment area (3m x 2m)

Acknowledge

Brochure adverts and flyer options

A4 advert in the onsite printed event programme

- £350 inside front cover (unless reserved for Headline Sponsor)
- £350 inside back cover
- £250 internal
- £350 A4 flyers (to be provided by your organisation) inserted in delegate packs

Flyers for delegate wallets: Some of you will be providing flyers for the delegate wallet (as per arrangement). Your flyers will need to be delivered to the address on the reverse of the booklet by Monday 18th September. Flyers delivered after this time may not be included in delegate wallets.

Your stand: Regarding your exhibit, there will tables and chairs available with access to a power supply. Tables are 1.5m in length (~1.5m x 0.7m x 0.7m) . The space allocated to your company will differ depending on the level of sponsorship agreed. Exhibiting spaces are approximately 2-3m in length (approx. 2m deep)

Registration: All attending delegates (agreed number) will need to pre-register online indicating whether they are attending the Gala dinner and reception. Additional delegates are entitled to attend at reduced rates. Delegates will be required to pick up their badges and delegate pack from the registration desk on Tuesday 26th September at Robinson College (registration opens at 08:00). Please wear your badge during the day - it is not possible to attend the lectures without a badge.

Programme: The final programme will be available on www.neuroscience.cam.ac.uk All exhibitors and sponsors are welcome to attend the talks, which will cover a range of topics. Please ensure that your exhibition stand is ready for the first break at 10:00 (see programme for details). The poster session and catering for lunch and breaks will be served in the space where you will be exhibiting.

Setting up: The exhibition space has been reserved for Monday 25th September PM TBC. where exhibitors will be allowed to set up, with exact timings to follow. Alternatively, the venue will open at 07:00 on Tuesday 26th September. Please note that registration opens at 08:00 and so delegates will be present from then. Please get in contact regarding courier deliveries direct to the venue.

Directions and Parking: Please find directions to Robinson College (CB3 9AN) on the following link <https://www.robinson.cam.ac.uk/contact-us/visiting-robinson/directions>
Drop off is available at the venue and there is limited on free street parking available around the college. The nearest unregulated streets are Herschel, Adams and Cranmer Roads. Free parking (1 car per company) will be provided by Cambridge Neuroscience and details will be made available closer to the time.

Wi-Fi: Each external delegate requiring Wi-Fi needs to be approved when visiting the University of Cambridge (unless you already have access to Eduroam). Wifi details will be made available at the registration desk.

Close of exhibition: Exhibitors can dismantle their stands after the afternoon break (16:25) on the day. Please arrange for your courier to collect your equipment after this time. The venue will close at 18:00 that evening and all equipment must be removed by this time.

*Practical arrangements were correct at time of going to print. An up to date schedule will be circulated prior to the event.

Covid-19: CamNeuro2023 will take place subject to the current government guidelines at the time.

Further information

Please note all prices stated in this document are ex VAT, and all flyers and advertising are subject to approval by *Cambridge Neuroscience*.
