ROWLAND INSTITUTE AT HARVARD

ROWLAND FELLOWSHIP

The Rowland Institute at Harvard invites applications for Rowland Fellowships from early-career experimentalists in all fields of basic and applied science and engineering. Fellows will establish innovative and independent research groups to push forward the boundaries of their chosen fields.

The term of the Fellowship is for up to five years, with a start date between July and December 2027. Fellows must have completed their doctoral degree in or after May 2025 and prior to starting their term.

Gene Transfer Agents in alphaproteobacteria — *Gozzi Lab*

Ultrafast equilibrium thermodynamics — *Ashoka Lab*

Flight-to-light behavior in moths — *Owens Lab*

Glycocalyx function in blood-brain barrier integrity — *Shi Lab*

www.rowland.harvard.edu

Rowland Fellows are group leaders with full principal investigator rights, access to dedicated lab space within the Rowland Institute, start up funds for capital equipment, a yearly budget that begins at $225,000 for general operations and the hiring of personnel, and a salary that begins at $89,999 plus benefits.

In addition to Harvard's resources, Rowland Fellows will have access to a team of dedicated scientific and technical support staff, an interdisciplinary community to work within, receive support for scientific writing and budgeting, and may have the opportunity to teach undergraduates. Fellows will receive leadership training to develop a productive lab culture as well as ongoing career development support.

Rowland Fellowship application instructions can be found here:
