

# Symposium

# Terra.X 7T MRI

**Book on eventbrite**

**Wednesday, 10 June 2026 | 12 PM - 5:30 PM**
**Clifford Allbutt Building,**
**Biomedical Campus, Cambridge**

**The 7T Terra.X is the best MRI scanner in the UK, capable of whole brain high fidelity imaging.**

It enables incredibly subtle work, including the capacity to see the structure, functions and metabolism in the brain like never before.

The potential for this new technology for your research is transformative. We'll be telling you about what it can do and we want to hear your thoughts on how this can benefit our research community.

Meet with us at this informal symposium on the biomedical campus to plan together the next steps for 7T MRI in Cambridge.

**Enhance your research with the latest MRI with the support of our expert team.**

**This event is for:**

- researchers at the University of Cambridge
- biomedical business
- translational researchers
- MRI methods enthusiasts
- MRI applications enthusiasts

**Research Enquiries**

The Wolfson Brain Imaging Centre, at the University of Cambridge, invites you to collaborate with us.

Spaces are currently available to book for 7T MRI scans.

Talk to our team today to discuss how we can help facilitate your research:
